

THE COLOUR PALETTE SALON

A unisex hair and beauty lounge located in the heart of picturesque Crowthorne.

The Colour Palette Salon is a unisex hair and beauty lounge located in the heart of picturesque Crowthorne. The beautiful, boutique space was designed by salon owner and founder, Hardia who was inspired by her home in South Africa as well as her travels all around the globe – it's clear as soon as you step through the doors that the salon is a little piece of her artistic flair, brought to life in the beautiful, relaxed setting.

The salon offers a huge range of hair services, headed up by Creative Director, Alessio Matta whose previous roles have seen him leading the Vidal Sassoon Academy, expertly assisted

by the rest of the hair team. Using products like Wella System Professional and Oribe plus many more, every cut and colour is finished meticulously and to perfection.

Beauty is manned by a team of expert beauticians all trained to the highest standard, bringing you exclusive treatments only available from The Colour Palette Salon such as celebrity favourite 'The Bee Sting facial'. Loved by Kate Middleton herself and also stocked on the shelves of premium stores like Harvey Nichols, this is just one of the many treatments that appeal to the high-end clientele of the salon.

When it comes to The Colour Palette Salon experience, customers can expect the latest in hair and beauty innovation including products and services from Wella, 72 Hair, Shellac, Lycon and Henna brows to name a very small few.

Since opening in April 2019, the salon has quickly amassed a cult following due to the meticulous work of the hair and beauty team. Every customer who steps through the door is treated like family, quickly becoming an extension of the team and often dropping in for a coffee in one of the lounge spaces or just to say hi. There is a real 'buzzing vibe' in the salon amongst the staff and customers alike and there has never been a more exciting time to become a part of The Colour Palette family.

“Every customer who steps through the door is treated like family, quickly becoming an extension of the team and often dropping in for a coffee in one of the lounge spaces or just to say hi.”
